## DEFINITIONS

- 1. Inflation:** Percentage change in the consumer price index (CPI)
- 2. Narrow Money**  
**M0:** Currency outside the banking system excluding commemorative coins  
**M1:** M0 + demand deposits of banks (or depository corporations)
- 3. Broad Money**  
**M2:** M1 + quasi (long term) money deposits i.e. time and savings deposits of banks.
- 4. Extended Broad Money**  
**M3:** M2 + resident foreign currency deposits.
- 5. Overall Liquidity**  
**L:** M3 + non-bank holdings of Government securities.
- 6. Net Foreign Assets (NFA):** Gross foreign assets less gross foreign liabilities of depository corporations (DCs).
- 7. Net Domestic Assets (NDA) of Depository Corporations (DCs):** the sum of:
  - Net credit to Government, which is the sum of net credit to government from the central bank (CBK) and commercial banks.
  - Credit to other sectors, which is the sum of credit to other sectors (private and other public entities) from central bank and from other depository corporations (ODCs).
  - Other Items Net (Other assets less other liabilities) of central bank and ODCs after
  - netting out positions between CBK and ODCs or consolidation adjustments.
- 8. NFA + NDA = Extended Broad Money**
- 9. Credit to Private Sector:** Credit facilities extended by DCs to the private sector.
- 10. Interest Rates:** Covers the short term rates including: Repo rate (3 and 7 days), reverse repo, interbank rates, treasury bill rates and commercial banks' weighted average lending and deposit rates.
- 11. Current Account Balance:** Measures the flows of goods, services, primary income, and secondary income between residents and nonresidents.
- 12. Capital Account:** Measures capital transfers receivable and payable; and acquisition and disposal of non-produced, non-financial assets, which include: marketing assets; contracts, leases, and licenses; and rights of natural resources such as land, minerals, water, air space between residents and nonresidents.
- 13. Financial Account:** Measures net acquisition of financial assets and incurrences of financial liabilities.
- 14. Exchange Rate:** The price of Kenya Shilling relative to a foreign currency. The mean exchange rate is computed by a simple average of the mean buying and selling exchange rate prevailing on any trading day.

- 
- 15. Foreign Exchange Reserves:** External assets held by the CBK that are readily available for meeting balance of payments financing needs and for intervention in the foreign exchange market.
  - 16. Government Revenue:** Comprises tax and non-tax revenue. Tax revenue includes import duty, excise duty, income tax (including PAYE) and value added tax (VAT) while non-tax revenue comprises investment income, appropriation in aid (AIA) and other levies.
  - 17. Grants:** Non repayable funds received by the Government from other governments or international organizations.
  - 18. Government Expenditures:** Both recurrent and development expenditures. Recurrent expenditures refer to spending on current activities. It consists of interest payments on debt (domestic and foreign), salaries and wages, pensions and payments for maintenance and operations. Development expenditure refers to the expenditure incurred on projects.
  - 19. Budget Deficit:** the excess of expenditure over revenue and grants. The converse is a budget surplus.
  - 20. Deficit financing:** Comprising external borrowing, domestic borrowing and sales of Government shares in government agencies (privatisation).
  - 21. Public and Publicly Guaranteed Debt:** Comprises external and domestic debt owed or guaranteed by the Government.

# 1. INFLATION

The Kenya National Bureau of statistics (KNBS) revised the inflation basket in February 2020 with the base period changing from February 2009 to February 2019. The previous CPI basket of 234 items was revised to 330 items, and an additional category known as 'Financial and Insurance services' was included in the basket. 'Miscellaneous goods and services' category was revised to 'Personal Care, Social Protection and Miscellaneous Goods & Services' category.

Contribution to overall inflation is provided upto January 2020. From February 2020, inflation rates across categories are provided.

\* This table has data from Central Bank and Commercial Banks only

Data has been re-classified to adopt a sectorisation that is aligned with global best practices, including Government Finance Statistics Manual (GFSM) 2014, Public Sector Debt Statistics 2014 Manual, System of National Accounts (SNA) 2008, and Monetary and Financial Statistics (MFS) 2016. The new classification leverages on Dhow Central Securities Depository (DhowCSD) system which has the capability to identify the ultimate holders of government securities. The new classification also captures information on any transfer of government securities that take place in the secondary market.

\*\*Data coverage in this table has been expanded to include data from Central Bank, Commercial Banks, Microfinance Banks and SACCOs.

Data has been re-classified to adopt a sectorisation that is aligned with global best practices, including Government Finance Statistics Manual (GFSM) 2014, Public Sector Debt Statistics 2014 Manual, System of National Accounts (SNA) 2008, and Monetary and Financial Statistics (MFS) 2016. The new classification leverages on Dhow Central Securities Depository (DhowCSD) system which has the capability to identify the ultimate holders of government securities. The new classification also captures information on any transfer of government securities that take place in the secondary market.

\* Provisional

Data has been re-classified to adopt a sectorisation that is aligned with global best practices, including Government Finance Statistics Manual (GFSM) 2014, Public Sector Debt Statistics 2014 Manual, System of National Accounts (SNA) 2008, and Monetary and Financial Statistics (MFS) 2016. The new classification leverages on Dhow Central Securities Depository (DhowCSD) system which has the capability to identify the ultimate holders of government securities. The new classification also captures information on any transfer of government securities that take place in the secondary market.
