

Central Bank of Kenya

Weekly Bulletin

April 24, 2020

KEY MONETARY AND FINANCIAL INDICATORS

Exchange Rates

The Kenya Shilling eased against major international and regional currencies during the week ending April 23 due to build up in dollar demand. It exchanged at 107.41 per US dollar on April 23 compared to 105.91 on April 16 (Table 1).

Foreign Exchange Reserves

The CBK usable foreign exchange reserves remained adequate at USD 7,858 million (4.75 months of import cover) as at April 23. This meets the CBK's statutory requirement to endeavor to maintain at least 4 months of import cover, and the EAC region's convergence criteria of 4.5 months of import cover (Table 2).

Remittances

Remittance inflows increased to USD 228.9 million in March 2020 compared to USD 218.8 million in February (Chart 1). The cumulative inflows in the 12 months to March totalled USD 2,838 million compared to USD 2,722 million in the 12 months to March 2019, reflecting a growth of 4.3 percent. There was no decline, so far, in remittances from the largest sources such as the US and UK. However, the inflows from South Africa, United Arab Emirates, Mauritius and Oman declined, reflecting the impact of COVID-19.

Money Market

The money market was liquid during the week ending April 23, supported by government payments, which partly offset tax receipts. Commercial banks' excess reserves stood at Ksh 53.9 billion in relation to the 4.25 percent cash reserves requirement (CRR). Open market operations remained active. The average interbank rate was 4.95 percent on April 23 compared to 5.93 percent on April 16. The average number of interbank deals per day decreased to 12 from 18 in the previous week, while the value traded increased to Ksh 6.4 billion from Ksh 5.6 billion in the previous week (Table 3).

Government Securities Market

The Treasury bills auction of April 23 received bids totaling Ksh 19.6 billion against an advertised amount of Ksh 24.0

billion, representing a performance of 81.7 percent. Interest rates on all the Treasury bill tenors remained stable (Table 4).

The 9-year Infrastructure bond tap sale on April 22 received bids totaling KSh 35.4 billion against an advertised amount of KSh 21.0 billion, representing a performance of 168.5 percent (Table 5).

Equity Market

At the Nairobi Securities Exchange, the NASI and NSE 20 share index increased by 2.2 percent and 0.1 percent, respectively, during the week ending April 23. The equity turnover and the number of shares traded also increased by 173.0 percent and 148.3 percent, respectively, following a longer trading week.

Bonds Market

The bonds turnover in the domestic secondary market increased by 191.5 percent during the week ending April 23. In the international market, yields on Kenya's Eurobonds increased by an average of 103.0 basis points. The yields for the 10-year Eurobonds for Angola and Ghana also increased, by a higher magnitude, during the week (Chart 3).

Global Trends

The volatility in the international oil prices increased during the week, reflecting the collapse of global demand as a result of the coronavirus pandemic. For the first time ever, the US benchmark WTI futures contract price plunged into the negative territory, on April 20 for May 2020 deliveries ahead of their expiry on April 21 and on account of shortage of storage capacity.

Murban oil price also declined from USD 20.70 per barrel on April 16 to USD 14.32 per barrel on April 22 before recovering to USD 19.04 per barrel on April 23.
